

# INFECTION CONTROL PROGRAM

**THE GOLD STANDARD IN BIOSENSOR TECHNOLOGY**

This is to certify that the office of

is participating in a licensed medical device

## SNS BIOSENSOR™

### Sterilizer Monitoring Program

For the protection of the patient and the staff, this office is utilizing a registered medical device. The effectiveness of their sterilization procedures is the most important step of a complete infection control program recommended by the Centers for Disease Control, the American Dental Association®, and the Public Health Department.

This office has taken action to prevent cross-contamination and promote infection protection for the safety of its patients.
